Method 1 (recommended): -

Please uninstall, and reinstall the Indigo Suite ("iClone Indigo Render Plug-in" + "Indigo RT for iClone") by following the installation order: -

- iClone 6/7

- [iClone Indigo Render Plug-in](#) (iClone 6/7 should not be running)

- [Indigo RT for iClone](#)

Do remember to key in "Indigo RT for iClone" Activation Key during the "iClone Indigo Render Plug-in" installation process.
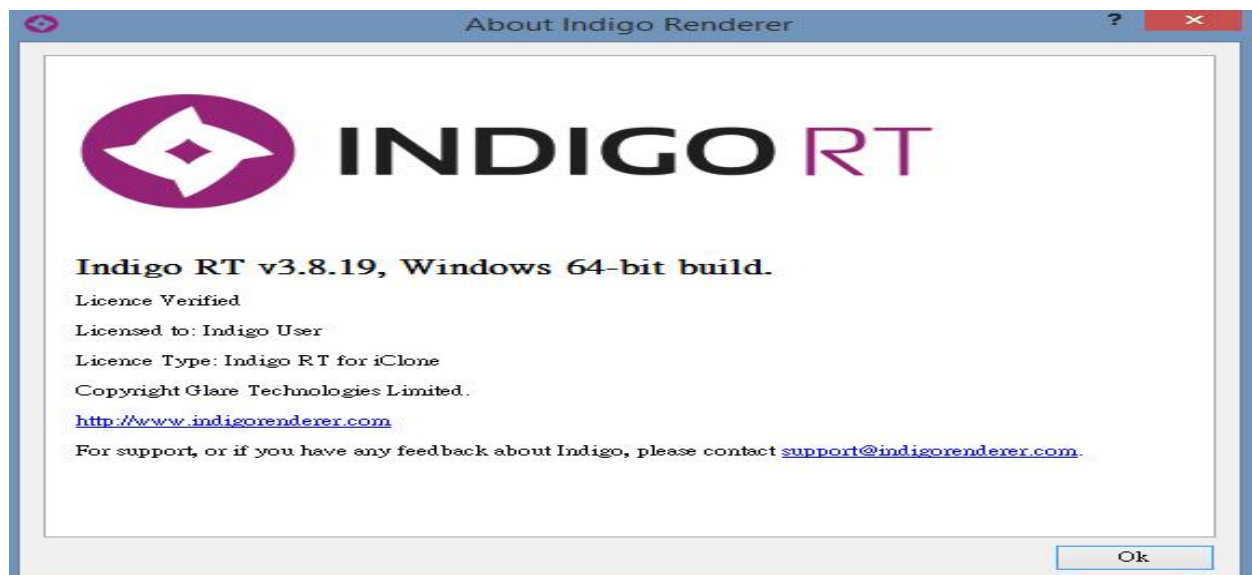

--OR--

Method 2: -

Create "activation_key.txt" file under the below folder with only the text content on the Indigo RT for iClone Activation Key: -

C:\Users\Public\Documents\Indigo Renderer\

The Indigo RT installer will then auto detect the activation key during the product launch when in online status.

***Note: Please DO NOT verify the license key (activation key) in "Indigo RT for iClone" application.

How to install Indigo RT for iClone Full version after using the Trial version?
