Simply download and install iClone v6.02+ patch.

From Windows menu, please select the following for iClone Graphics Mode Selection option, on either DirectX 11 or DirectX 9: -

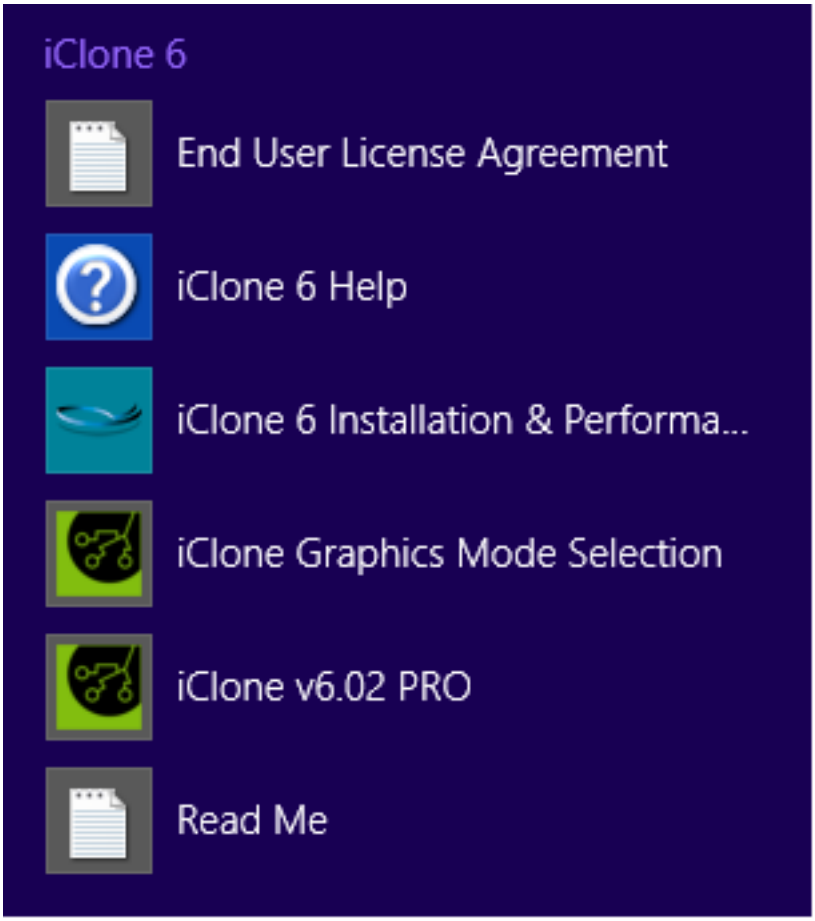

"Start" -> Program -> Reallusion -> iClone 6 -> iClone Graphics Mode Selection

iClone 6 will be launched accordingly on the Graphics Mode you have selected.

Additional Note: -

How to get the "Start" button back in Windows 8?

From http://www.computerhope.com/issues/ch001374.htm, refer to "Create a Windows Start Menu Toolbar"

How to switch between DirectX 9 and DirectX 11 Graphics Mode?
