CrazyTalk 8 can read .ct7model, .ct7script, .ct7AutoMotion, .ct7Motion file formats, which means models, script, auto motion and motion clip from CrazyTalk 7 can be used in CrazyTalk 8. The user can manually drag and drop the files into CrazyTalk 7 to apply model, script or motion clip.

After applying the files, users may choose to save these files as CrazyTalk 8 formats inside the Custom folder.
