How does CrazyTalk Animator 3 access the previous version DRM contents?

CTA3 Template folder: (Win7/Win8/Win10)

C:\Users\Public\Documents\Reallusion\Template\CrazyTalk Animator 3 Template

Mac

Users/Shared/Reallusion/Template/CrazyTalk Animator 3 Template

2) Since these digitally protected content were not installed using their original installers, nor downloaded from the BackStage, then they need to be re-verified for use in CrazyTalk Animator 3.

Please go to main menu, "Help" -> "Content 1-Click Verification", this will help you verify all your templates and custom content in a single go.

After clicking "Content 1-Click Verification", a confirmation dialog will pop up. Read the information carefully and click on "OK" to begin the verification process.

Please note that the verification requires an internet connection.
