How to setup an iPhone server IP address for the LIVE Face app ? (For CTAv3.3 Pro & Pipeline user)

Server Settings ⊗

Please enter your iPhone server IP address found inside the LIVE Face App.

Server Address :

IP: 192.168.0.1|

OK   Cancel

CrazyTalk Animator 3 Facial Mocap   ✕

Failed to connect to LIVE Face server.
Please check IP address and connect to the same WiFi domain.

Retry   Cancel
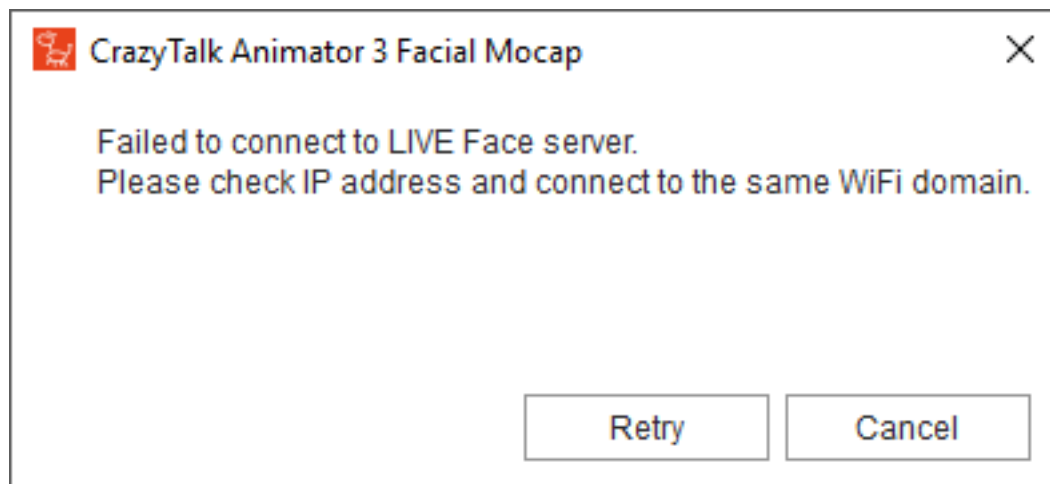

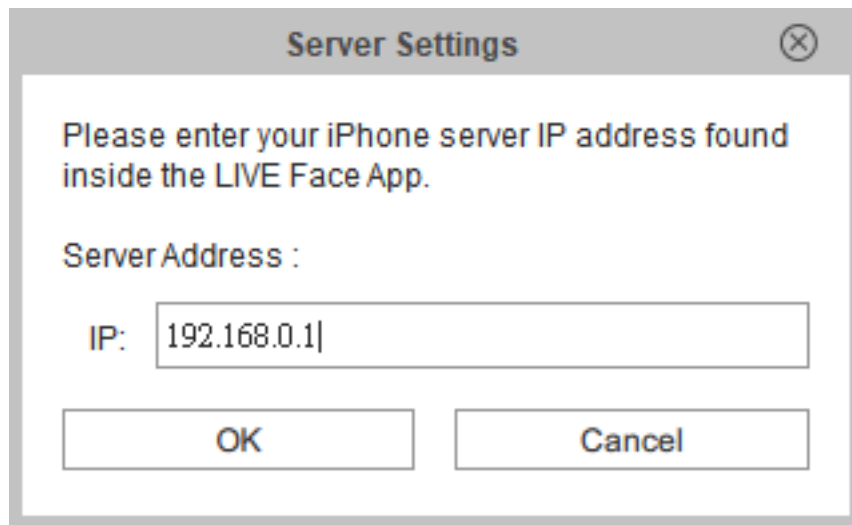

1) Simply download the free **LIVE Face app** from the Mac App Store, and install onto your **iPhone X**. (Skip to Step #2 for second screen shot.)

2) Establish an intranet connection between the iPhone X and the

computer, and make sure that they are on the same domain. You may connect to the same Wi-Fi network or use the iPhone X's hotspot to share a Wi-Fi internet.

More info:
https://manual.reallusion.com/CrazyTalk_Animator_3/ENU/Pipeline/Default.htm#

3) For smooth frame rate without lag, recommended using **USB Connection**: -
