

How to setup an iPhone server IP address for the LIVE Face app ? (For CTA4 user)

- 1) Simply download the free LIVE Face app from the Mac App Store, and install onto your iPhone X. (Skip to Step #2 for second screen shot.)
- 2) Establish an intranet connection between the iPhone X and the computer, and make sure that they are on the same domain. You may connect to the same Wi-Fi network or use the iPhone X's hotspot to share a Wi-Fi internet.
