How to update Character Creator & iClone Auto Setup on Unity? (v3.1)
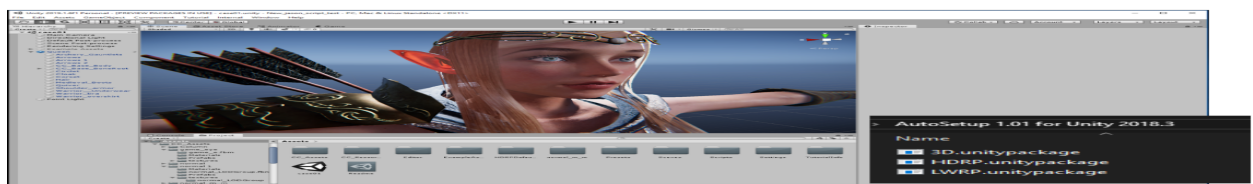

1. Acquire the latest version of Auto Setup.

2. Open Unity Editor.

3. Re-imported LWRP.unitypackage, HDRP.unitypackage or 3D.unitypackage to the project section to replace old version.

*Updates to Auto Setup will remove all textures on all Character Creator / iClone characters. Please reconfigure your material settings after updating Auto Setup.
