

Which packs are updated for CC3+?

For this CC 3.3 release, Reallusion has made enhancements for some of the best selling content packs which can be divided into two parts: morphs and clothes. For the morphs, we have added support for the all new CC3 Base+ character base along with all the optimizations that come with it. The quality and fidelity achieved by the transformation to the CC3 Base+ character base, is head and shoulders above the competition. For the clothes part, major breakthroughs have been made in resolving distorted shoulder areas and problems arising from cross-generational clothing application.

Read on to see which content packs have been improved, and ways to acquire them. [Know More](#)

*** *Smart Gallery is unable to update the Street Fashion and Assassins pack at this moment. Please fully uninstall these packs before installing them again from the Smart Gallery.**
