How do I restore the Smart Content Manager's database to the default?

1) Download the Reset Database Tool:
https://ftp.reallusion.com/reallusionsupport/ResetDB_IC8CC4CC5CTA5.zip

2) Close Character Creator 5/iClone 8/Character Creator 4/Cartoon Animator 5 program.

3) Uncompress the "ResetDB_IC8CC4CTA5" to local drive.

4) Double click the related .bat file to run it.

Eg: For iClone 8, use "Reset IC8 Database and Registry.bat" and so forth.

5) Wait around 30 seconds for rebuilding the database.

6) Done.
